A Must-Read for Educators and Parents

In today's rapidly changing world, it is more important than ever to prepare students to be independent, self-directed learners. Empower: What Happens When Students Own Their Learning provides a roadmap for empowering students to take ownership of their learning and achieve their full potential.

This engaging and informative book is based on the latest research on student learning. It debunks the myth that students need to be spoon-fed information in Free Download to learn. Instead, it shows how students learn best when they are actively involved in their learning process.

Empower provides practical strategies that educators and parents can use to create a more engaging and empowering learning environment for students. These strategies include:

- Providing students with choices and autonomy over their learning
- Creating a culture of respect and trust in the classroom
- Encouraging students to take risks and learn from their mistakes
- Providing students with feedback and support to help them improve their learning

When students are empowered to take ownership of their learning, they become more engaged, motivated, and successful learners. They develop a lifelong love of learning and the skills they need to thrive in the 21st century.

Reviews

"Empower is a game-changer. It provides educators and parents with the tools they need to create a more engaging and empowering learning environment for students." - **Dr. Tony Wagner, author of The Global Achievement Gap**

"Empower is a must-read for anyone who wants to help students reach their full potential. It is full of practical strategies that can be used in any classroom." - **Susan Kovalik, teacher and author of The Unstoppable Learner**
