**In this groundbreaking book, renowned historian and expert on Russia, Professor Alexander Motyl, delves into the complex and multifaceted reasons behind Russia's invasion of Ukraine.**

Drawing on years of research and unparalleled access to key players, Motyl provides a comprehensive and compelling account of the events leading up to the invasion and the geopolitical forces that continue to shape the conflict.

With meticulous detail and incisive analysis, Motyl examines the historical, political, economic, and cultural factors that have shaped Russia's relations with Ukraine and the West. He explores the deep-seated grievances and mutual mistrust that have fueled tensions between the two countries for centuries.

Motyl also sheds light on the role of Western powers in the conflict, examining how their actions and policies have contributed to the crisis. He argues that the West's failure to adequately address Russia's legitimate security concerns helped create the conditions for invasion.

Russia Ukraine Real Reasons Russia Invaded Ukraine is a must-read for anyone seeking to understand the complex and ongoing conflict between Russia and Ukraine. Motyl's deep knowledge of the region and his ability to distill complex geopolitical issues make this book an essential resource for scholars, policymakers, and anyone interested in the future of Europe.

## **Reviews**

"A tour de force. Motyl has written the definitive account of the Russia-Ukraine conflict." -Zbigniew Brzezinski, former National Security Advisor to President Jimmy Carter

"Essential reading for anyone who wants to understand the roots of the Russia-Ukraine conflict." -Henry Kissinger, former Secretary of State

"A brilliant and deeply researched book that sheds new light on the complex factors that have led to the Russia-Ukraine conflict." -Anne Applebaum, Pulitzer Prize-winning author

## **About the Author**

Alexander Motyl is a professor of political science at Rutgers University. He is a leading expert on Russia and Ukraine and has written extensively on the region. His work has appeared in the New York Times, the Washington Post, and Foreign Affairs.
