### The Birth of Robinswood

Robinswood's genesis can be traced back to the post-World War II era, a time when England grappled with the social fallout of the conflict. In 1947, a group of visionaries, led by the charismatic Dr. John Bowlby, embarked on a bold mission to establish an innovative institution that would prioritize the rehabilitation of young offenders.

The Robinswood experiment broke away from the traditional punitive approach to juvenile justice, embracing a holistic philosophy that emphasized education, therapy, and vocational training. Situated in a picturesque setting amidst rolling hills and verdant meadows, Robinswood

aimed to provide a nurturing environment where troubled youth could reclaim their lives.
