King begins his journey in Ferguson, Missouri, the site of the fatal shooting of unarmed black teenager Michael Brown by a white police officer in 2014. The shooting sparked widespread protests and unrest, and King uses Ferguson as a microcosm of the racial tensions that are simmering in cities across the country.

From Ferguson, King travels to Baltimore, Maryland, where he meets with residents who are still struggling to recover from the devastating riots that followed the death of Freddie Gray, another unarmed black man, in police custody in 2015. King also visits Chicago, Illinois, where he witnesses the daily toll of violence on the city's South Side.

But King's journey is not all about despair. He also finds hope in the stories of individuals and organizations who are working to make a difference. In Milwaukee, Wisconsin, he meets with members of the "Climbing Out of Poverty" program, which is helping low-income residents find jobs and build better lives for themselves and their families.

In New Orleans, Louisiana, King visits the "Common Ground" project, which is bringing together people from different racial and economic backgrounds to work on community improvement projects. And in Minneapolis, Minnesota, he meets with members of the "Voices for Racial Justice" organization, which is working to address the systemic racism that exists in the city.

These are just a few of the many stories that King shares in "Uncivil Nation, Kindred Spirit." It is a book that is both heartbreaking and hopeful, a reminder of the deep divisions that exist in our society, but also of the power of hope and the human spirit to overcome adversity.

If you are looking for a book that will challenge your thinking and inspire you to action, then I highly recommend "Uncivil Nation, Kindred Spirit." It is a must-read for anyone who cares about the future of our country.
